

Usability Testing Plan (D5)

Date: 11/12/20

team name: Golden Geese

project name: NFC Website

Testing

Who	Client, ideally accessibility volunteers, non-accessibility volunteers, Michael's roommate, Bryce's mom
When	Pretty soon, whenever we can schedule times for volunteers to test As soon as prototype is faked enough
Where	Remotely: We could possibly do the walkthrough of a prototype through a zoom call On campus: If volunteers are willing, we could run a usability test with a survey on students on campus
How	Use case demo with survey

Use case demo will consist of the volunteer being given our somewhat to fully functional prototype and given the task of following a determined path to measure the ease of traversal through our app.

Potential Paths (will be updated as more screens are added):

Starting Screen:	Ending Screen:
Home Page	Edwardsville Chapter 1 Audio Player
Edwardsville Chapter 1 Audio Player	Edwardsville Chapter 2 Audio Player
Home Page	Hamel Audio Player
Home Page	Contact Us
Edwardsville Chapter 1 Audio Player	Home Page

Survey Questions:

- Colors/Theme
- Shape of buttons
- Layout of <screen> screen
- Overall ease of traversal
- Intuitiveness

A good technical document:

- is concise
- hello there, traveler
